The two major factors for determining the size plaque you need are available wall space and the amount of text. Instructions for determining plaque size are included in the Suggested Retail Price List. Standard sizes for nameplates, plaques, and tablets are listed here. For custom sizes, please contact our Customer Service Department.

Nameplates

NOTE: During the cooling process, cast metal undergoes a small amount of shrinkage, which makes very precise tolerances very difficult to achieve without special machining.

These minor dimensional variations need not concern you, unless your plaque is designed to meet extremely exacting requirements. If you need further technical assistance, please contact our Customer Service Department.
